

CAST ALUMINUM
OVEN WARE
AND
NEW SAFETY
TEA KETTLE

BULLETIN NO. A6

SEPTEMBER 1st, 1911

THE GRISWOLD MFG. COMPANY
ERIE, PENNSYLVANIA. U. S. A.

THE REASONS WHY GRISWOLD'S "ERIE" PURE ALUMINUM COOKING UTENSILS ARE THE BEST

FIRST. They are light in weight, bright as silver, and absolutely pure and wholesome.

SECOND. They are solid metal throughout, there being no enamel or plating to flake or wear off.

THIRD. They will not burn or scorch food as readily as other metals.

FOURTH. They conduct heat more rapidly than other metals and retain it longer.

FIFTH. They do not contain or form any of the poisonous substances found in tin, copper or enameled ware.

SIXTH. There are no joints, seams, rivets or solder to leak and give trouble. Cast in one piece, are thicker and stronger, and will outlast any other ware.

SEVENTH. They have a special hard finish on the inside which resists acids and alkalis.

Note Especially

These new pieces of Cast Oven Ware, Pie Plates, Pudding Pans, etc., cast in one piece, with side handles, no seams or joints.

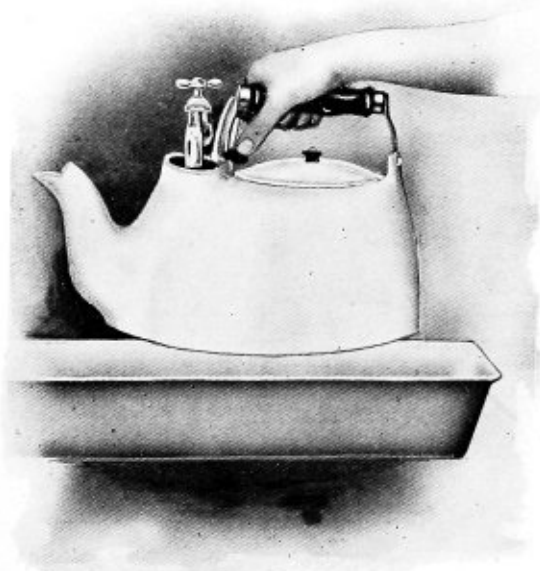

CAST ALUMINUM WARE.
